

Direct access to official law reports

when you need it – on tablet, on mobile, online

The image displays the ICLR Online interface across three devices: a desktop monitor, a tablet, and a smartphone. The desktop screen shows a detailed case summary for 'Assange v Swedish Prosecution Authority' (2012 2 AC 471), including the citation, alternative case names, date of judgment, and publication references. A circular 'pdf' icon is overlaid on the left side of the desktop screen. The tablet and smartphone screens show the same case summary in a mobile-optimized format. The background of the desktop screen is a dark green with the ICLR logo and the text 'THE LAW REPORTS ON TABLET - ON MOBILE - ONLINE'.
