

# Intelligent, Interactive Will Drafting Systems for Law Firms

Designed by professionals for professionals the DPL Professional Will Drafting Systems save you time whilst helping to deliver a professional service to your clients, either 1:1 or via your own website.

You can build new, profitable income streams simply and easily with the systems, already widely used across the legal profession.

- Easy to use
- Increased efficiency
- Professional service
- Risk management/compliance
- Automatic mirror Wills

**DPL Professional Wills Desktop - England & Wales:** drives efficiency whilst maintaining a professional end result for your clients. Intelligent, interactive questionnaires guide the user to input the required information and the system automatically creates the Will and associated documents including a Will Commentary, Cover Sheet and Signing Instructions. The system includes LPAs, SJT and other associated documents.

**DPL Professional Wills Online - England & Wales:** branded with your firm's logo and "look & feel" this service can be easily promoted to win new clients by allowing them to create simple Wills in their own time or to submit instructions to you.

**DPL Professional Wills Desktop - Scotland:** Scottish Wills, Will Commentary and Continuing Powers.
